RE: **Notice of Intent to Award for ISB S2 Access Control System**

Adam,

Thank you for your response to Eastern Oregon University's Request for Proposal for our Integrated Services Building- S2 Access Control Project. We appreciate the thought and effort you put into your response.

It is my pleasure to name ASET as the apparent successful proposer.

EOU intends to enter into an agreement with ASET for the above-named project. David Moore will be the EOU contract representative for executing this contract and can be contacted by the telephone number or email listed at the bottom of his email.

I look forward to working with you on this project!
