## **I. INTRODUCTION AND BACKGROUND**

### **Project Overview**

Southern Oregon University (SOU) began as Ashland Academy in 1872, and today serves as a regional University and center for education, culture and scholarship. The main campus is located in Ashland, Oregon, combining quality education with a spectacular location. Surrounded by rugged mountains, rivers, and lakes, the beautiful 175-acre campus is home to 6,100 students from around the world.

SOU is a four-year public university specializing in liberal arts, sciences, and select graduate and professional programs. Our faculty and staff create a dynamic environment that engages students in the process of learning. Our strong commitment to each student provides a personalized approach that is both academically challenging and personally supportive. Our rich liberal arts and sciences curriculum is balanced with career-focused preparation. With 100 areas of study including 35 majors, we are committed to making the educational experience unique and enriching for all of our students.

SOU's values are reflected in our mission statement:

Southern Oregon University is a regionally-engaged learning community committed to being the educational provider of choice for learners throughout their lives. We inspire curiosity and creativity, compel critical thinking, foster discovery, and cultivate bold ideas and actions. We achieve student success, professional preparation, and civic engagement through service excellence, evolving technologies, and innovative curriculum. We foster access, equity, inclusion and diversity in thought and practice. We prepare our learners to be responsible, engaged citizens in our democracy. We promote economic vitality, sustainability, cultural enrichment, and social well-being in our region, the state, the nation, and the world.

SOU is committed to the values of Diversity, Equity, Inclusion and Sustainability. One of the ways that SOU has memorialized this dedication is through its Sustainability and Equity in Purchasing Policy and associated Procedure.

SOU would like your proposal to include information about how your company mitigates the environmental impact of its services, such as greenhouse gas emissions, amount of waste generated, water and energy use, or other areas related to your services.

Additionally, please also include information on your supplier diversity strategy as well as your corporate values statement. We believe Diversity, Equity, Inclusion enriches and encourages all of us to engage with the world and to deliver impactful solutions.
