Project Description

This project is to design and install a rooftop , grid-tied Photovoltaic (PV) system at the SOU Theater building located at 475 University Way, Ashland, OR. The PV array will be installed on the sloped roof over the Theater’s auditorium. The new PV panels will be attached to the new 22-gage, standing-seam metal roof system.

The project is for design and construction of complete, and fully functional PV system including, but not limited to:

- Design drawings, calculations and specifications
- Plan review and permitting through the City of Ashland
- Grid-tied solar PV panels mounted on an existing standing-seam metal roof
- Inverter systems
- Utility disconnect per City of Ashland standards
- Remote system monitoring set-up
- Complete systems installation, start-up and commissioning
- As-Built drawings, Operations & Maintenance manuals, and Owner Training
- Warranty service

The systems shall be designed to maximize the solar output at the designated roof. In the evaluation process, SOU will consider system output, system cost per watt produced, component warranties, company and staff qualifications, Proposer references, and other factors. Proposers must submit details and costs for their proposed system on the Price Sheet (Attachment C).

Pre-Proposal Meeting

A **mandatory** pre-proposal meeting will be held at the job site (475 University Way, Ashland, OR) on **Monday June 9, 2025 at 9:00am**. A representative for each Proposer is required to attend.

Administrative Requirements

The form of Agreement between SOU and the contractor will be the Design/Build Agreement. A Sample Owner-Design Builder Agreement is included (Attachment F). This agreement will form the contract between SOU and the contractor. If you are unable to comply with these terms and conditions without any material modifications, then you should not submit a Proposal for this Project.

The Design/Build Agreement that may result from this RFP will include the design, documentation, permitting, construction and commissioning of the complete grid-tied PV systems.

The Design/Build firm shall be skilled in design, construction, understanding construction methods and techniques, selecting subcontractors, coordinating construction processes, and be capable of providing consultation and assistance to the Owner. The Design/Builder must be able to communicate the design and construction-related aspects of the Project to all team members throughout the design and construction process.

All designs and construction materials shall meet or exceed federal, state and local laws, regulations, ordinances and building code requirements. The PV system shall specifically meet all requirements of the Oregon Electrical Specialty Code and the Oregon Solar Installation Specialty Code. The PV system shall be designed and installed using UL- or ETL-listed components. The PV system shall be a complete functioning system. All design and engineering related services must be performed by professionals registered and licensed in Oregon in the appropriate professional discipline. All renewable energy credits and incentives resulting from this project will be the property of SOU.

A Performance and Payment bond will be required for this project. A bid bond is not required.

All Proposers must be registered with the Oregon Construction Contractors Board and have the required Public Works Bond on file with the Construction Contractors Board (CCB) prior to submitting a Proposal. Failure to be registered and have the bond in place will result in the rejection of your Bid as non-responsive. All subcontractors must file a Public Works Bond with the CCB prior to starting work on the project, unless exempt.

State of Oregon Bureau of Labor and Industries (BOLI) Prevailing Wage Rates are applicable to the construction phase of this Project. The Design/Builder and all subcontractors shall comply with the provisions of ORS 279C.800 through 279C.870 relative to Prevailing Wage Rates. See SOU General Conditions, Sections C.1 and C.2, regarding wage rate compliance and payroll certification requirements. Workers shall be paid the applicable rates per the January 5, 2025 BOLI Prevailing Wage Rate including the April 5, 2025 amendments. Prevailing wage rates are available at <http://www.oregon.gov/BOLI>. If a contractor fails to pay for labor or services, SOU can pay and withhold these amounts from payments due the Design/Builder (ORS 279C.5.15). The Design/Builder and their subcontractors shall provide a written schedule to employees showing the number of hours per day and days per week the employee may be required to work (ORS 279C.520). The Design/Builder and their subcontractors must promptly pay for any medical services they have agreed to pay (ORS 279C.530).

HOWEVER, PROPOSERS ARE RESPONSIBLE TO MAKE THEMSELVES AWARE OF, OBTAIN AND INCORPORATE ANY CHANGES MADE IN ANY ADDENDA ISSUED, AND TO INCORPORATE ANY CHANGES MADE BY ADDENDUM INTO THEIR FINAL PROPOSAL. FAILURE TO DO SO MAY, IN EFFECT, MAKE THE PROPOSER'S PROPOSAL NON-RESPONSIVE, WHICH MAY CAUSE THE PROPOSER'S PROPOSAL TO BE REJECTED.

Proposers may be present; however, award decisions will not be made at the opening. Only names of those companies that submitted proposals will be announced.

PROPOSAL EVALUATION AND AWARD

EVALUATION PROCESS: Proposals will be awarded based upon the evaluation criteria in the Request for Proposal and in applicable SOU Policies and Oregon Administrative Rules.

Ordinarily, proposals will be evaluated to identify the "highest ranked" responsive proposer who has substantially complied with all requirements of the Request for Proposal and who can be expected to deliver promptly and perform reliably.

However, SOU may engage in the Negotiations process, the "Low Tie" Proposals process, or other processes identified in the applicable SOU Policies and Oregon Administrative Rules to determine the contract award.

If a contract is awarded, SOU will issue a Design/Build Agreement (Attachment F) that incorporates the RFP terms and conditions and proposer's Proposal Form with Price Sheet and Proposer's Certifications.

The stages of review and evaluation are as follows:

- a. **Determination of Responsiveness:**
SOU will first review all accepted proposals to determine Responsiveness. Proposals that do not comply with the instructions or are incomplete may be deemed non-Responsive. Written notice will be sent to proposers whose proposal is deemed non-Responsive identifying the reason. A proposer has the right to appeal the decision pursuant to SOU's Procurement and Contracting Code (FAD.057 (580-061)).
- b. **First Stage Evaluation:**
SOU may request in writing additional information from all qualified proposers prior to completing the first stage evaluation.

Those proposals determined to be Responsive will be evaluated using the requirements identified in the Submittal Criteria, above at page 8. Proposals will be scored based on the evaluation criteria listed below. Scores will be used to determine proposers within a competitive range. The competitive range will be made of proposers whose individual scores, when viewed together, form a group of the highest ranked proposers above a natural break in the scores.

SOU may award after the first stage evaluation to the highest ranked proposer without moving on to the second stage evaluation. If this option is selected, Written Notice of Intent to Award the Contract to the highest ranked proposer will be provided to all Responsive Proposers, or an award may be made directly without a notice of intent in those instances of a single Responsive Proposer.

- c. **Second Stage Evaluation:**
If an award is not made after the first stage evaluation, SOU may choose any of the following methods in which to proceed:
 - i. Issue a Written Invitation to Proposers within the competitive range requesting an interview, presentation, site visit or any other evaluative method that is relevant to the goods or services solicited in the Request for Proposal. SOU may also request in writing additional information from any or all proposers in the competitive range through the written invitation. Written invitations will contain the evaluation criteria and scoring that will be used by the evaluation committee.

- ii. Engage in oral or written discussions with and receive best and final proposals from all proposers in the competitive range or all proposers submitting responsive proposals. Discussions may be conducted for the following purposes:
 - Informing proposers of deficiencies in their initial proposals;
 - Notifying proposers of parts of their proposals for which SOU would like additional information; or
 - Otherwise allowing proposers to develop revised proposals that will allow SOU to obtain the best proposal based on the requirements set forth in this Request for Proposal.

The conditions, terms, or price of the proposal may be altered or otherwise changed during the course of the discussions provided the changes are within the scope of the Request for Proposal. Best and final proposals will be scored based on the evaluation criteria listed below. Points awarded in the first stage evaluation will not be carried to the second stage evaluation. Contract will be awarded to the proposer who, in SOU's opinion, best meets the requirements and qualifications of the RFP and SOU's needs.

d. Additional Stages of Evaluation:

If after completion of the second stage evaluation an award is not made, SOU may add another stage of evaluation using any of the methods outlined in the second stage evaluation above.

EVALUATION CRITERIA: Points will be given in each criterion and a total score will be determined. The maximum points available for each criterion are identified below.

<u>Evaluation Criteria</u>	<u>Points</u>
Company History, Firm Information, Comparable Projects and company Sustainability Policy	30
Personnel Qualifications and Experience	20
Proposed PV Equipment, Performance, Warranties and Pricing	40
References	10
Total	100

NEGOTIATIONS: SOU may commence serial negotiations with the highest ranked proposer or commence simultaneous negotiations with all eligible proposers. SOU may negotiate:

- a. The statement of work;
- b. The Contract price as it is affected by negotiating the statement of work; and
- c. Any other terms and conditions determined by SOU in its sole discretion to be reasonably related to those expressly authorized for negotiation.

Terms and conditions within the sample contract that are unrelated to the statement of work or Contract price may be negotiated after award, but before legal review or execution of the Contract. If a successful contract cannot be negotiated in a timely manner after award, SOU may conclude contract negotiations and rescind its award to that proposer and return to the most recent RFP stage to negotiate with another proposer for award.

PRIOR ACCEPTANCE OF DEFECTIVE PROPOSALS: Due to limited resources, SOU generally will not completely review or analyze proposal responses which on their faces fail to comply with the requirements of the proposal documents or which clearly are not the best proposals, nor will SOU generally investigate the references or qualifications of those who submit such proposal responses.

Therefore, neither the release of a proposer's proposal bond (if applicable), the return of a proposal response, nor acknowledgment that the selection is complete operates as a representation by SOU that an unsuccessful response was complete, sufficient, or lawful in any respect.

ADDITIONAL INSTRUCTIONS

DELIVERY: Significant delays in delivery of product or services specified may be considered in determining award if early delivery is required.

CASH DISCOUNTS: Cash discounts will not be considered for award purposes unless stated in the proposal documents.

PAYMENT: Proposals which require payment in less than 30 days after receipt of invoice or delivery of goods, whichever is later, may be rejected.

INVESTIGATION OF REFERENCES AND CONSIDERATION OF PAST PERFORMANCES: SOU reserves the right to investigate the references and the past performance of any proposer, including but not limited to the proposer's performance of similar services, compliance with specifications and contractual obligations, and its lawful payment of suppliers, sub-contractors, and workers. SOU may postpone the award or execution of the contract after the announcement of the apparent successful proposer in order to complete its investigation and may take the results of its investigation into account when conducting proposal evaluations. SOU reserves the right to reject any proposal response or to reject all proposal responses at any time prior to SOU's execution of contract if it is determined to be in the best interest of SOU to do so.

PROPOSALS ARE OFFERS: The proposal is the proposer's offer to enter into a Contract pursuant to the terms and conditions specified in the Request for Proposal, its Exhibits, and Addenda. The offer is binding on the proposer for thirty (30) days. SOU's award of the Contract constitutes acceptance of the offer and binds the proposer. The proposal must be a complete offer and fully Responsive to the Request for Proposal.

CONTINGENT PROPOSALS: Proposer shall not make its proposal contingent upon SOU's acceptance of specifications or contract terms that conflict with or are in addition to those in the Request for Proposal, its Exhibits, or Addenda.

METHOD OF AWARD: SOU reserves the right to make the award by item, groups of items, or entire proposal, whichever is in the best interest of SOU.

RIGHT TO REJECT: SOU may reject, in whole or in part, any proposal not in compliance with the Request for Proposal, Exhibits, or Addenda, if upon SOU's written finding that it is in the public interest to do so. SOU may reject all proposals for good cause, if upon SOU's written finding that it is in the public interest to do so. Notification of rejection of all proposals, along with the good cause justification and finding of public interest, will be sent to all who submitted a proposal.

PROPOSAL RESULTS: Ordinarily, only proposers who receive awards will be notified of proposal results; unsuccessful proposers will not be notified. Intent-to-award will be posted on the SOU Bonfire procurement portal.

Proposers may view tabulations of awarded proposals by requesting a copy of such from the SOU Service Center.

PUBLIC RECORD: Upon completion of the Request for Proposal process, information in your proposal will become subject records under the Oregon Public Records Law. Only those items considered a “trade secret” under ORS 192.345(2) may be exempt from disclosure. If a proposal contains what the proposer considers a “trade secret” the proposer must mark each sheet of information as such. Only bona fide trade secrets may be exempt and only if public interest does not require disclosure.

LEGAL REVIEW: Prior to execution of any Contract resulting from this Request for Proposal, the Contract may be reviewed by a qualified attorney for SOU pursuant to the applicable Oregon Revised Statutes, Oregon Administrative Rules, and SOU policies. Legal review may result in changes to the terms and conditions specified in the Request for Proposal, Exhibits, and Addenda.

PROTEST OF CONTRACTOR SELECTION, CONTRACT AWARD: Any proposer who feels adversely affected or aggrieved may submit a protest within three (3) business days after SOU issues a notice of intent to award a Contract. The protest must be clearly identified as a protest, identify the type and nature of the protest, and include the Request for Proposal number and title. The rules governing protests are at SOU’s Procurement and Contracting Code (FAD.057 (580-061)).
